Dear Kitten:

I thought the next time I would be writing you would be to tell all about the baby but so far am still around wait to the doctor to day & after he examined me said to have my grip packed could be anytime now so other than getting a little impatient everything is fine.

It seems so funny seeing Monte in civies looks like he did three years ago well if the baby arrives this week I pray to God it does I be home if possible near the end of July.

Oh so you have a new job congratulations do you like it. Virginia wrote me that Chris was going to be Evans secretary & you take her job tell her I'm glad she got the job & you moved a step up. any petty jealousies are

the changes made. If there are
never mind you deserve a break
if it was one.

My cousin Alice O'Connor
I don't believe you ever met her but
anyhow she had a baby girl the
26 of May, I am anxious to see
what mine will be my suit
case has been packed for over
a month.

Well I shall have to sign
off my back gets tired when I
sit too long take care + I do hope
+ pray the next you hear from
me the baby will be here.

loads of love
Stattie
